53%

Below Balanced Market

vs. 6-month threshold

For Buyers

- More selection — up 27 listings YoY
- Neither side holds strong advantage

For Sellers

- Supply still well below 6-month balance
- Strong absorption despite more listings

PRICING POWER

Sale-to-List Price Ratio: 99.7%

Buyers are paying **99.7% of asking price** — down just 0.3% from perfect parity last year. Realistic pricing wins; overpriced homes face resistance.

Why It Matters

- Sellers: price right from day one
- Buyers: expect near-full-price competition
- Market is disciplined, not speculative

Market Implications

For Buyers:

- Low-ball offers unlikely to succeed
- Strong offers close to list price win

For Sellers:

- Competitive pricing = fast sale
- Overpricing leads to price reductions

NEW SUPPLY

New Listings: 125 Homes

Year-Over-Year Change

+20.2% — highest increase in the 12-month period. Seller confidence is rising. Strong absorption continues despite increased supply.

Why It Matters

- More choices entering the market
- Spring surge expected to continue
- Inventory-to-sales ratio remains healthy

For Buyers

- More options arriving weekly
- Best time to start your search

For Sellers

- Optimal listing window is now open
- Spring market participation at peak
